

Clicker Writer

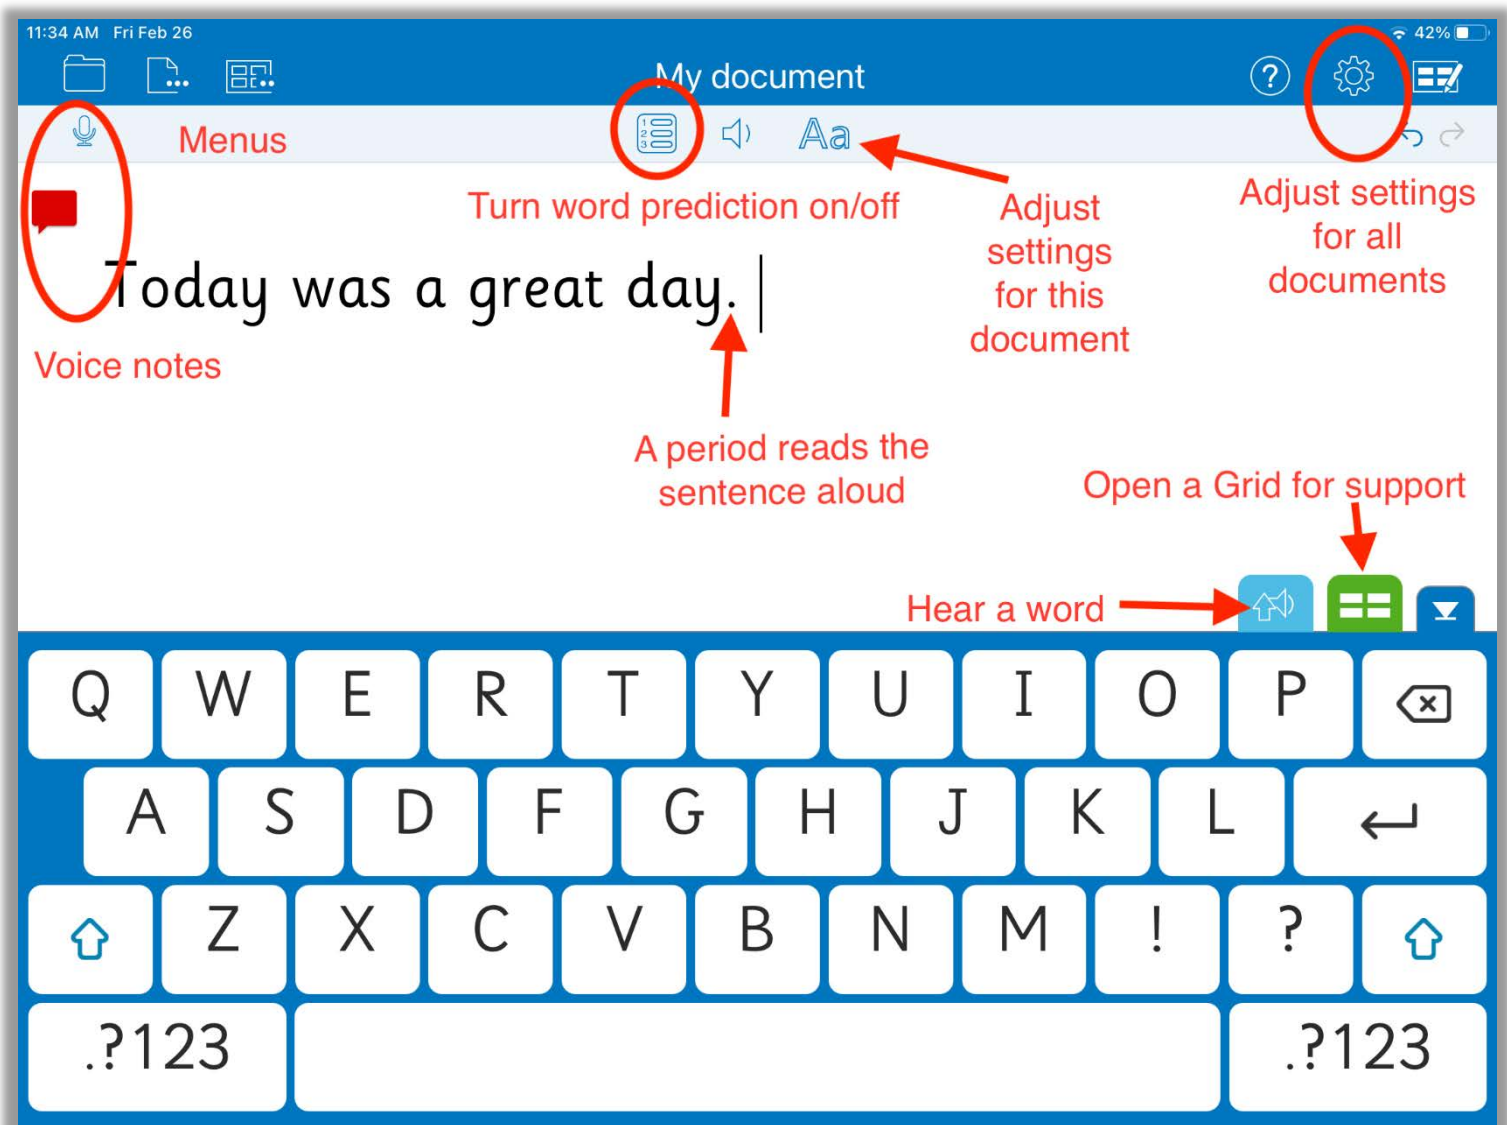

Introduction

- Clicker Writer is an iOS app with many features to support student writing.
- Writing a document can be simplified with tools such as word prediction, spell check, and speech options.
- Three types of Clicker Grids provide students with different levels of language support:
 - Clicker Sentences
 - Connect Set
 - Word Bank
- Voice notes can be added to any document by the student or the teacher.
- Writing tasks can be made more engaging with picture banks and access to the iPad camera.
- Documents and Grids can be saved, printed, or shared on the iPad, via AirDrop or other file sharing programs (Google Drive, OneDrive).
