

	<p><i>The communication competency encompasses the set of abilities that students use to impart and exchange information, experiences and ideas, to explore the world around them, and to understand and effectively engage in the use of digital media.</i></p> <p>https://curriculum.gov.bc.ca/competencies/communication</p>
	<p><i>The creative thinking competency involves the generation of new ideas and concepts that have value to the individual or others, and the development of these ideas and concepts from thought to reality.</i></p> <p>https://curriculum.gov.bc.ca/competencies/creative_thinking</p>
	<p><i>Critical thinking involves making judgments based on reasoning: students consider options; analyze these using specific criteria; and draw conclusions and make judgments. Critical thinking competency encompasses a set of abilities that students use to examine their own thinking, and that of others, about information that they receive through observation, experience, and various forms of communication.</i></p> <p>https://curriculum.gov.bc.ca/competencies/critical_thinking</p>
