Tutorial: Read&Write for Google Chrome Translator

Introduction

This tutorial provides an overview of how to use the Translator tool available in Read&Write for Google Chrome. Translator allows users to translate single words into over 90 different languages. This tool works in Google Docs, Google Slides, and websites. Translator supports users who are learning English or other languages to gain a more comprehensive understanding of written content and pronunciation.

Learning Objectives

Completing this tutorial will give you experience:

- Using the Translator feature to translate content from English to another language.
- Navigating the Settings menu to customize translation to and from English and a variety of languages.

This tutorial assumes that

- You have the Google Chrome browser in use on your computer.
- You have a Google account.
- You have access to Read&Write (check if there is still a free teacher account).
- You have internet access.

Case Study

Shimah is a Grade 8 student who is learning the English language. They often encounter unfamiliar words when reading and listening to curricular content. They would benefit from having a quick and easy way to have unfamiliar words translated as they are working, and like having a written definition to promote understanding with the option of hearing the word pronounced aloud to build confidence in English oral communication.
**Steps to Follow**

<table>
<thead>
<tr>
<th>Step</th>
<th>Instruction</th>
<th>Visual Depiction</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Open the work that you would like to translate in Google Chrome.</td>
<td><img src="image1" alt="Visual Depiction" /></td>
</tr>
<tr>
<td>2</td>
<td>Check that the Read&amp;Write extension toolbar is visible at the top of your screen. If it’s not there, select the purple puzzle piece icon on the top right corner of your screen to activate and/or refresh your browser.</td>
<td><img src="image2" alt="Visual Depiction" /></td>
</tr>
</tbody>
</table>
3. To customize translation language, select the Options menu. Navigate to the bottom of the Speech tab and select the language you would like to translate to. The languages at the top can have their translations read aloud.

4. To use the tool, highlight the word to translate. Select the Translator icon and the word will open in a pop up with one or more translations.
<table>
<thead>
<tr>
<th>Step</th>
<th>Instruction</th>
<th>Visual Depiction</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>To hear the translation read aloud, press the play icon.</td>
<td><img src="image1" alt="Visual Depiction" /></td>
</tr>
<tr>
<td>6</td>
<td>Users can also use this tool to translate from other languages to English or another language. For example, to translate from French to English, select the Options menu, and in the Speech tab change the Translation language to English.</td>
<td><img src="image2" alt="Visual Depiction" /></td>
</tr>
</tbody>
</table>
7. Next, go to the Language tab, and change the features French.
